DETAILED ACTION

Reasons For Allowance

1. Claims 46-65 are allowed.
2. The following is an Examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fails to teach the claimed invention of forming a composite signature, as claimed by Applicant. Specifically, independent claims 46 and 65 disclose "training a first neural network based on the first signature and the distinct second signature".

The closest prior art of Hunt et al.¹ teaches the use of multiple signatures in classifiers, but fails to teach or suggest the training of neural networks with multiple signatures. The art cited by Examiner does not show this feature. To the extent that the prior art cited by Examiner fails to show these features, claims 46-65 are allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

¹ Hunt et al (U.S. Patent Number 5,365,574; dated 11/15/1994; class 379; subclass 245)
